Natural Gas and Electricity News

Some electricity customers are receiving a letter from NOPEC offering a 4% discount. Take that offer by doing nothing. Some other residents are receiving a letter from NOPEC informing them they are being switched to NOPEC for natural gas. The City advises against that. You should “opt out.” For help with natural gas and electricity questions call 526-2606.

If you're paying more than \$7.00 for natural gas you're paying too much.
