CTL Proposal No. 21050011CLE-P

Mr. Wise:

In response to your request, CTL Engineering, Inc. is pleased to submit this proposal for Geotechnical Investigation services for the referenced project.

PROJECT DESCRIPTION AND SCOPE OF WORK

The project consists of repairing the existing slope failure along section of the east side of Riverview Road about 400 feet south of Fitzwater Road Intersection in Brecksville, Cuyahoga County, Ohio.

The slope is mostly wooded with a noted seepage zone and drainage swale along the upper portion. The failure occurred at the top of slope and partially into the roadway.

CTL plans to advance 1 soil boring to 70 feet deep near top of slope using drill rig. CTL will obtain soil samples at 2.5-foot interval in the upper 20 feet and at 5-foot interval thereafter. A topographic map including the infrastructures and site features will be required to perform slope stability analysis and recommendation for stabilization. Others will provide such map. The City of Brecksville would provide all legal right for site access.

Based on the collected soil data, CTL will provide slope stability analysis, and provide recommendations for slope stabilization.

SCHEDULE

CTL can start the drilling within 7 to 10 days of authorization. The final report will be submitted within 25 to 30 working days of authorization.

CLOSING

CTL is committed to provide comprehensive and quality services to its clients, and is confident that our services are commensurate with your professional expectations. We sincerely appreciate the opportunity to provide this cost proposal and look forward to working with you. Should you have any questions, please feel free to contact me at (330) 220-8900.

Respectfully submitted,
CTL ENGINEERING, INC.
