## 2018 Brings Changes to the Recycling Collection Schedule

Curbside recycling collection is now following an every other week schedule and will continue to coincide with your rubbish collection day. This will provide more collections throughout the year and alleviate the occasional three week period of no recycling collection that occurred with the former schedule.

## Do you need to schedule a Friday appliance/metal item pick-up?

Common items that require a Friday pick-up include dehumidifiers, washers/dryers, refrigerators/freezers, lawnmowers/snow blowers, window a/c units, metal shelving, file cabinets, tubs, and scrap metal.

Fridays are reserved for appliance/large metal item pick-up. Call the Service Department at 440-526-1384, Monday through Friday, 7:30am to 4pm, to schedule a Friday metal pick-up or with questions regarding pick-up.
