

OFFICE OF THE FINANCE DIRECTOR

July 1, 2022

The Transparency in Coverage mandate requires insurers and group health plans to make rate information publicly accessible to members and non-members starting July 2022. Medical Mutual will share rate information for contracted providers as well as historical allowed amounts and billed charges for out-of-network providers in a machine-readable file (MRF) format. The information will be posted on a dedicated MRF landing page, available through MedMutual.com.

The City of Brecksville as an ASO group in order to be compliant under the mandate, must include a link on our website that directs users to the location of the publicly available MRFs. Please see link below.
