

Brecksville Road Resurfacing (CUY SR 021 02.93-05.18)

Project Description

- The City of Brecksville with the partnership of ODOT District 12 continues in the development of plans toward the resurfacing of Brecksville Road from the intersection of Royalton Road (S.R. 82) to the northern corporation limit. This is the second of three projects that will resurface the entirety of Brecksville Road from the south to the north corporation limits. Funding of the project will be provided through ODOT's Urban Paving Program and the City of Brecksville. In addition to the roadway resurfacing the project will ensure ADA curb ramp compliance at public intersections within the project limits.
- The Project will be constructed in a manner that will maintain two-way traffic at all times using various lanes of the pavement and shifting traffic based on the stages of construction. The plans are in the early stages of design and the City is working through the various lane shifts required to construct the project. During construction, lane shifts will be posted with appropriate signage and traffic control devices throughout construction.

Anticipated Project Schedule

- Design Complete/Approved – March 2025
- Project Award – May 2025
- Construction Start – June 2025
- Construction Complete – October 2025

Estimated Project Cost

- \$5,916,000.00
- ODOT Funding Cap \$2,430,000.00

Public Input

- Public input for the proposed resurfacing project is welcome. Public comments will be received until October 15, 2024. Please mail or email comments to:
